## **ACKNOWLEDGEMENT**

In the first name of Allah the Almighty, the Most Gracious and Most Merciful, may this upon the Prophet Muhammad SAW and members of His family.

First and foremost, thankful to Allah SWT for giving me the strength and ability to complete this report in the fulfillment of final year project for Bussiness Computing Project.

Here, I would like to express my grateful to all my family members for their endless support and encouragement to me in completing this report.

Special thanks go to Encik Shukor bin Abd. Rahaman, my supervisor for all his kindness in lecturing and guiding me, giving all the priceless comments and advice throughout the completion of this report.

My greatest appreciation to Encik Ariffin bin Md Yusoff, the College Assistant Manager for his precious cooperation in giving information about the colleges and the manual registration process conducted by HEP.

Millions of thanks to Assc. Prof. Mardziah binti Hj. Hashim(Coordinator of Bussiness Computing Project), Puan Rogayah and Puan Halilah for all their guidelines and endless help to me in conducting this research. Not forgotten, I would like to express my appreciation to all my friends that helps me so much and always be very supportive and encouraging me to complete my project.

Lastly, my thankfulness does to everybody who has been involved directly and indirectly in completing this research. May Allah SWT bless you.

Thank you!

## **ABSTRACT**

With the advancement of the technology in our world nowadays, online registration has become more and more acceptable in fulfill the needs of human. For instance, in applying jobs as well as in educations registration. UiTM itself has provided online registration. The students were asked to register their subject through online registration every semester. This practice is acceptable by UiTM students. The University Accommodation Online Registration (UAOR) is introduced as an alternative way in solving problems that occur in manual registration such as the problem of overlapping students' data and students do not receive college offer letter. Through manual system of registration, student need go to the college office to take the college registration form and the fill it. After that, the students are required to send the form to college office together with envelope that has been written on their address, guardians salary slip and activity card. This tradition should be done every semester. By implementing the system of UAOR, UiTM student can access and do the online registration for their subject from anywhere and anytime with the duration stated by HEP circular. Other than that, this system also helps HEP to manage the students' data accurately. In a nutshell, the introduction of UAOR will definitely give a new dimension to college online registration.
